

## Elementary School 2 HOUR PACKAGES

Whichever package you choose for your event, our DJ's will not only play a great mix of music, but will also be happy to get involved by interacting with the students while teaching line dances and taking requests. We're also happy to act as your MC and coordinate or announce any other activity that may be taking place during the event. If additional time is needed, each hour would add \$50 to the package price.

### **Classic - \$249** (INCLUDES 100 FREE GLOW BRACELETS)

The Classic features our top quality commercial quality sound system with crystal clear CD sound. It also features 2 lighting effects. The Classic package's lights fall into a few different categories. These are the lights that you've probably seen before. They will do just one thing (spin, flash, the lights may rotate) when they are turned on. And don't forget the 100 free glow bracelets. We will be happy to hand these out during the dance or even better, turn them over to you. Why? How about selling these items at the door to the students, family or faculty for \$2 each. That means that if all 100 Glow Bracelets get sold, your DJ just cost the committee \$50.00 !!!

### **Cosmic Blacklight Dance - \$269** (INCLUDES 100 FREE GLOW BRACELETS)

If you're looking for something different, this might be for you. In addition to 2 Classic lighting effects, we will send along a 400 watt UV (black light) projector. This fixture casts a broad beam of purple light and you may even want to co-ordinate your decorations to be black light reactive. Don't forget that the 100 free Glow Bracelets can be sold to lessen the expense for the entertainment.

### **Laser Fantasy Dance - \$279** (INCLUDES 100 FREE GLOW BRACELETS)

This is unbelievable, but you can have a live laser show at your school. Of course, with Rent-a-DJ, you can be assured our laser show is set-up safely. You'll get a spectacular show featuring graphic special effects and a beam show. You also get of our Classic lights for the greatest light show that your school has ever seen. There aren't very many mobile DJ's in the whole USA that own this type of laser. If you want to see what it looks like, visit our web site [www.rentadj.com](http://www.rentadj.com). Our haze machine is also included and the option to turn over the Glow Bracelets is always available.

#### **A quick word about Haze**

The new replacement for the old style fog machines. The main reason to use fog or haze is to help the lights look better. Great lights without anything in the air to reflect it will only look ok. With something in the air to reflect light (whether it's dust, fog or haze), the lighting effects suddenly become spectacular. Fog machines have always had problems. They have been banned outright at a lot of schools because excessive fog can set off smoke detectors. Foggers actually burn liquid. Hazers on the other hand run cool and are more like atomizers. If we were to run the machine for 2 hours straight, it's unlikely that you'll even notice it in the air.

Both the Laser Fantasy and the Cosmic Blacklight dance are great events to choose for their connection to various themes and Holidays. How about a Disco themed dance with the DJ playing all those great songs for the kids to Boogie to and maybe even showing up in bellbottoms or other 70's attire. How about a Retro 80's dance where you could incorporate a silly hair day in school and throw this type of dance after school. Another great idea for the Cosmic Blacklight Dance is to have this dance around the Halloween season. Decorations could vary from UV reactive painted tapestries (i.e. bed sheets) and crafts can also be done during this type of event that would involve the children painting with these same UV reactive paints. Of course the students could plan to be dressed in fluorescent clothing or even attend wearing white T-shirts showing their own creative artwork glowing for all to see. The Laser Fantasy dance could also be held as a type of futuristic themed dance. The committee could decorate with student artwork or other items that they feel is what the future will look like.

### **Movie Night Under the Stars - \$329** (INCLUDES 100 FREE GLOW BRACELETS)

This is a great event for fundraising efforts or a perfect way to end a Carnival or Festival type event. Imagine having the whole family bringing their blankets and lawn chairs to enjoy a Movie Under the Stars. The school could raise funds by charging an admission to the movie. How does a dollar per family member sound instead of \$9.75!!! Maybe sell popcorn or any other healthy movie associated food. You could even sell glow bracelets or necklaces. The possibilities are endless for this one. You supply the movie and we'll take care of the rest. This package would include an enormous 12foot Video Projection System and our state of the art Outside Theater Sound System with all the bells and whistles that can be found in any movie theater across the nation. This package can also be provided inside a gym or cafeteria type area if location or weather is of any concern.
